Horizon Ltd

Annual Report 2026

Results of the year and plans for 2027

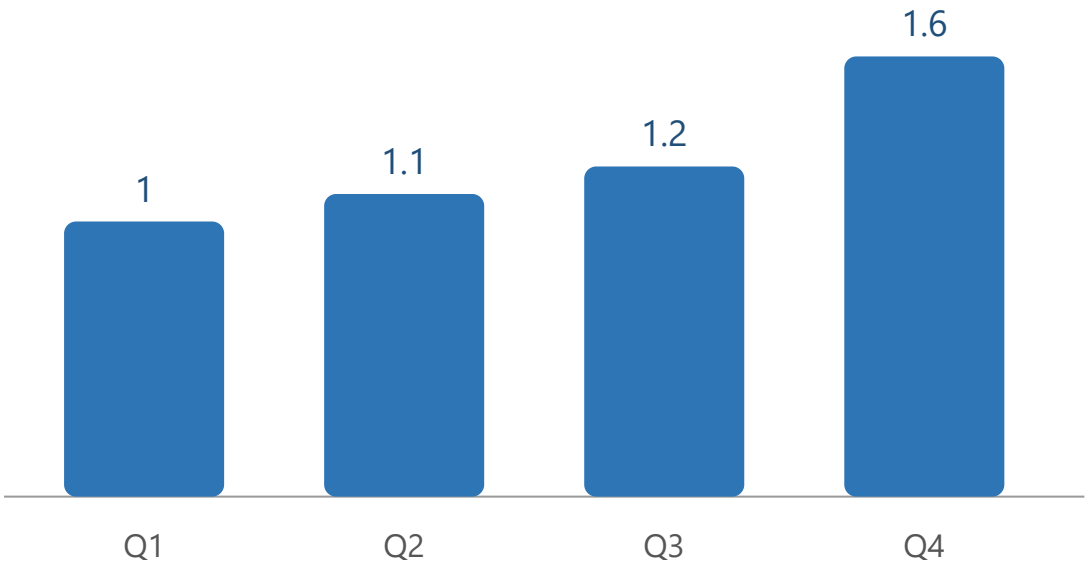

March 2027

Key figures

In 2026 the company grew revenue by 18% and its customer base by 24%. The key figures compared with the previous year are below.

Indicator	2025	2026	Change
Revenue, £m	4.1	4.9	+18%
Customers	1,840	2,281	+24%
Average order, £	224	213	−5%
Employees	64	71	+11%

Revenue by quarter, £m

Results of the year

Revenue grew in every region, fastest in Bristol and Leeds. Laptops and monitors made the largest contribution: together they account for 61% of revenue.

We opened two new warehouses and cut delivery time to two days in most cities. The share of repeat purchases rose to 38%.

The average order went down slightly as customers buy accessories separately more often. This was expected and is offset by the growing number of orders.

Plans for 2027

- Grow revenue by 15%.
- Open a warehouse in Glasgow.
- Launch a loyalty programme for regular customers.
- Cut delivery time to one day in London and Manchester.

Risks

The main risks are rising purchase prices and currency fluctuations. To reduce them, we signed long-term contracts with three key suppliers.
